Skills ━━━━━━━━━━

Front-End Development:

- React/Redux
- Vue/VueX
- Javascript
- Ant Design
- Vuetify

Back-End Development:

- Node.js
- Express.js
- Python

Database Management:

- SQL
- PostgreSQL
- MongoDB

Cloud DevOps:

- AWS, Azure
- Jenkins, Docker
- Grafana

Version Control Development Tools:

- Visual Studios
- IntelliJ IDE
- Eclipse
- GIT

Languages ━━━━━━━━

- English
- Hindi

Summary

- Dynamic and results-driven Software Engineer with 3+ years of hands-on experience in full-stack development, specializing in React, Vue.js, Node.js, and Express.js.
- Proven ability to deliver scalable, high-performance web applications in fast-paced Agile environments, primarily in the BFSI and vehicle re-marketing sectors. Adept at solving complex problems, optimizing system performance, and collaborating with cross-functional teams to drive business success.
- Currently pursuing a Master of Information Technology at Whitireia and WelTec, Wellington.
- Holds full-time work rights under current visa conditions.

Experience

Apexon — **Mumbai**
Engineer II (Node js Developer) — **Aug 2024- Jan 2025**
- Built backend APIs using Node.js and Express.js with a focus on code clarity and performance.
- Tested and validated APIs with Postman; worked closely with QA for bug fixes and improvements.
- Used Jenkins and Docker for automated deployment; contributed to smoother CI/CD pipelines.
- Supported monitoring via Grafana, resolving backend issues during QA and production phases.
- Worked with clients and teams to gather requirements and deliver effective solutions.

Iorta Technology Solutions Pvt Ltd — **Mumbai**
Software Engineer — **April 2023 - April 2024**
- Developed and maintained UI components using React, Redux, Vue.js, Vuetify, Ant design.
- Worked on client-facing dashboards and forms in the BFSI domain.
- Collaborated with backend teams to integrate APIs and resolve frontend-backend issues.
- Reduced frontend bug count by 40 percent via focused code reviews and modular design practices.

Amiti Software Technologies Pvt ltd — **Bangalore**
Software Developer — **Aug 2021 - Feb 2023**
- Developed and tested features as part of a full-stack development team.
- Wrote unit tests and documentation for developed components.
- Worked closely with audit and release teams to ensure smooth deployments.
- Participated in Agile ceremonies including sprint planning and retrospectives, improving team collaboration and delivery timelines.

Accunity Services LLP — **Mumbai**
Internship in Web Development — **Dec 2020 - May 2021**
- Built responsive websites using HTML, CSS, JS, and PHP based on client specs.
- Mentored junior interns and created internal documentation for handovers.
- Deployed completed websites to shared hosting environments and ensured cross-browser compatibility.

Project

Portfolio Website - Personal
- Performance-First: Built with Vite instead of Create React App for 10x faster builds and instant HMR
- Modern React Architecture: Functional components with hooks and TypeScript
- Responsive Design: Mobile-first approach with Tailwind CSS
- Interactive Elements: Dynamic navigation, animated progress bars, contact form
- Smooth Animations: Framer Motion for fluid transitions and scroll-triggered effects
- Build Tool: Vite for lightning-fast development and optimized production builds.
- Tech: React, TypeScript, Vite, Tailwind CSS, Framer Motion

Insurance Platforms (Enterprise Clients)
  • Built user interfaces for agents to manage claims efficiently.
  • Used React with Redux (Kahoona) and Vue with Vuetify (Tata AIG) to create modular UI components.
  • Integrated APIs and ensured responsive design and usability across browsers.
  • Maintained a focus on timely project delivery and adherence to client-specific requirements, achieving high client satisfaction.
  • Tech: ReactJs(Ant design), VueJs(Vuetify), JavaScript, NodeJs, Express MongoDB, AWS, GIT.

Vehicle Re-Marketing Platform :
  • Contributed to full-stack development of a platform supporting 60+ white-label auction sites.
  • Built key frontend modules (bidding, vehicle search, dealer portal) using React, Vue, and TypeScript.
  • Assisted in developing backend features using Node.js, Express.js and Java(Spring), including API integrations and data flow logic.
  • Tech: ReactJs, VueJs, StencilJS, TypeScript, JavaScript, NodeJs, MongoDB, AWS, CSS, Bootstrap, Java/J2EE, Spring Boot, REST Service, Docker, SQL, jQuery, GIT.

Education

Whitireia and WelTec, Wellington, New Zealand   **2025 – Present**
  Master of Information Technology

University of Mumbai   **2017 – 2020**
  Bachelor of Science (Computer Science)   7.38 CGPA

Achievement
  • Cultural event head in TechExposure college event (2019)
