PROFESSIONAL PROFILE

Software Engineer with 3+ years of commercial experience delivering full-stack web applications, backend APIs, integrations, testing, CI/CD workflows, and production support. Experienced with React, Vue.js, TypeScript, Node.js, Express.js, SQL, PostgreSQL, Docker, Jenkins, GitHub Actions, and Grafana. AWS Certified Solutions Architect - Associate, with a practical and adaptable approach to learning new technologies and contributing across frontend, backend, cloud, and AI-enabled software projects.

Recently submitted a Master of Information Technology thesis focused on browser-based machine-learning performance and scalability. The research strengthened capability in structured data collection, performance analysis, statistical evaluation, reproducibility, and evidence-based technical decision-making. Currently working at Woolworths NZ, with first-hand experience of a fast-paced, customer-focused retail environment and a strong interest in contributing to data, AI, and platform engineering.

TECHNICAL SKILLS

Software Engineering: Node.js, Express.js, REST APIs, microservices, React.js, Vue.js, Redux, TypeScript, JavaScript, Java Spring (foundational)

Cloud, Delivery & Quality: AWS Certified Solutions Architect - Associate, AWS architecture fundamentals, Azure exposure, Git, GitHub Actions, Jenkins, Docker, CI/CD, Jest, Postman, Grafana, unit testing, integration testing

Data, AI & ML: Python (academic / research / foundational), SQL, PostgreSQL, MongoDB, pandas, NumPy, scikit-learn, TensorFlow.js, PyTorch, ONNX Runtime Web, OpenCV, JSON and CSV data handling, machine-learning evaluation, performance analysis

PROFESSIONAL EXPERIENCE

Apexon | Mumbai, India

Engineer II - Node.js Developer

Aug 2024 - Jan 2025

- Built and maintained backend **REST APIs** using Node.js and Express.js, supporting reliable integration between frontend applications and backend services.
- Tested and validated APIs using Postman, partnering with QA to investigate defects, improve release readiness, and resolve issues during QA and **production support**.
- Contributed to continuous integration and deployment workflows using **Jenkins** and **Docker**, supporting repeatable build and deployment processes.
- Used **Grafana** to investigate application behaviour and performance, supporting monitoring and reliability across QA and production environments.
- Worked with client and delivery teams to clarify requirements, document outcomes, and deliver practical **technical solutions**.

Iorta Technology Solutions Pvt Ltd | Mumbai, India

Software Engineer

Apr 2023 – Apr 2024

- Developed and maintained client-facing dashboards and operational forms for **BFSI** applications using React, Redux, Vue.js, Vuetify, and Ant Design.
- Built reusable UI components and integrated frontend applications with backend APIs to support dependable data flow and user workflows.
- Reduced frontend bugs by **40%** through focused code reviews, modular component design, and improved development practices.
- Collaborated with backend, QA, and delivery teams in an actively developed, multi-engineer codebase to resolve issues and release responsive business applications.

Amiti Software Technologies Pvt Ltd | Bangalore, India

Software Developer

Aug 2021 - Feb 2023

- Contributed to full-stack development for a vehicle re-marketing platform supporting more than **60** private-label auction sites.
- Built and supported bidding, vehicle-search, and dealer-portal modules using React, Vue.js, TypeScript, **Java**, Node.js, Express.js, MongoDB, SQL, and REST services.
- Assisted with API integrations and data-flow logic across frontend and backend systems; wrote **unit tests** and technical documentation for developed components.
- Worked with audit, QA, and release teams to support reliable deployments and participated in Agile planning and retrospectives.

Woolworths NZ | Wellington, New Zealand

MultiSkill Assistant

Mar 2025 - Present

- Support daily retail operations across multiple departments, including stock availability, replenishment, rotation, and quality standards.
- Work effectively in a diverse, fast-paced New Zealand environment, strengthening **communication**, reliability, **teamwork**, and adaptability while completing **postgraduate** study.

Accunity Services LLP | Mumbai, India

Web Development Intern

Dec 2020 - May 2021

- Built responsive websites using HTML, CSS, JavaScript, and PHP; supported deployment to shared hosting environments and cross-browser compatibility testing.

SELECTED TECHNICAL PROJECTS

Master's Thesis - Browser-Based Machine Learning Performance and Scalability | Master of Information Technology | Thesis submitted

- Conducted a quantitative benchmark comparing TensorFlow.js with a Python-originated PyTorch model exported to ONNX and executed in-browser using ONNX Runtime Web and WebAssembly.
- Evaluated inference latency, throughput, workload scalability, cross-browser behaviour, and long-duration runtime stability under controlled conditions.
- Produced structured experiment outputs, analysis-ready datasets, statistical results, visualisations, and reproducibility artefacts to support transparent technical reporting.

Facial Emotion Recognition Using Learning Classifier Systems | Coursework project

- Developed a Python-based image-classification workflow using feature extraction with Local Binary Patterns and Histogram of Oriented Gradients.
- Implemented an XCS learning classifier system and compared results with SVM, Random Forest, and MLP models using accuracy, precision, recall, F1-score, and confusion matrices.

Portfolio Website | Personal project

- Built a high-performance, responsive React/TypeScript portfolio using Vite for 10× faster builds
- Mobile-first design with Tailwind CSS; interactive elements and smooth animations via Framer Motion.
- Tech: React, TypeScript, Vite, Tailwind CSS, Framer Motion

EDUCATION & CERTIFICATION

Whitireia and WelTec | Wellington, New Zealand

Master of Information Technology | 2025 - 2026 | Thesis submitted: Browser-Based Machine Learning Performance and Scalability

University of Mumbai | Mumbai, India

Bachelor of Science in Computer Science | 2017 - 2020 | CGPA: 7.38 / 10

AWS Certified Solutions Architect - Associate | Issued Jul 2025 | Expires Jul 2028
